

Guardian Teledentistry

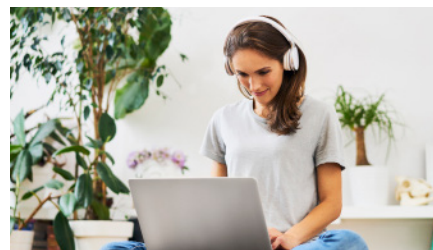

Now more than ever, it is important to ensure our members have access to dental care – and teledentistry helps make that happen. In fact, one in three adults are open to trying teledentistry, and are more likely to use it if their insurance plan covers it.*

That's why Guardian offers an easy-to-use teledentistry option that helps PPO members access a dentist when they need urgent care and they don't have a dentist or their dentist is unavailable.

Here's how Guardian Teledentistry works:

- Members can schedule an appointment at virtudent.com/guardianteledentistry or they can call 1-800-506-8305.
- They will receive a secure, password-protected video conference link to use at the time of their appointment with a care coordinator.
- It will be determined if additional treatment is required and a dentist may prescribe medication if needed.
- If a follow-up is required, the patient will be referred to a Guardian network provider.
- The visit is covered by their Guardian plan – there is no need to submit a claim.**

Guardian Teledentistry can help address issues including a loose or lost crown, broken tooth, bleeding or swollen gums, pain or tooth sensitivity and more.

What are some concerns we can help with?

- A loose or lost crown
- Breaking a tooth or a filling
- Bleeding or swollen gums
- Pain or tooth sensitivity
- Tooth discoloration
- Grinding or clenching your teeth
- Muscle soreness or discomfort while chewing
- Oral sores or lesions
