

byte® at-home orthodontic treatment

Deliver affordable, flexible dental benefits to help meet your clients' and their employees' evolving needs during these challenging times.

byte, the at-home invisible orthodontic aligner, will now be offered in-network for Guardian plans that include orthodontic benefits. You can introduce your clients to an innovative, affordable way to help employees straighten and whiten their teeth from their home:

- **No office visits:** impressions of teeth are taken at home and a licensed orthodontist or dentist will customize personalized treatment and track progress with remote monitoring.
- **Faster treatment time:** exclusive HyperByte® technology cuts down treatment time while reducing discomfort.*
- **Ongoing support:** all members receive a 3-in-1 premium teeth whitener, breath freshener and aligner cleaner when they receive their aligner and a retainer post-treatment.
- **Lifetime guarantee:** byte guarantees their treatment – if a member sees a shift in their teeth, byte will help get them back in alignment at no additional cost.**

Members with Guardian orthodontic coverage simply sign up at go.byteme.com/guardian. byte will verify their insurance coverage.
